*Computer Science undergraduate student looking for an internship to gain hands-on experience in the software industry. Eager to apply knowledge in a real-world setting and learn from industry professionals.*

## EDUCATION

### FAST-NUCES

Bachelor of Science in Computer Science

Lahore, Pakistan

Aug 2023 - June 2027

- Relevant coursework: Programming Fundamentals, OOP, Data Structures, Databases Systems, Operating Systems

### Lahore Grammar School - JT

A' levels

Lahore, Pakistan

Aug 2021 - June 2023

- Subject: Physics, Mathematics, Computer Science
- Grades: 3 A\*'s & A's

### Cornerstone School

O' levels

Lahore, Pakistan

Aug 2018 - June 2021

- Subject: Sciences, Mathematics, Computer Science
- Grades: 9 A\*'s

## SKILLS

- **Languages:** C++, JS, SQL, VB.net, Python (basics)
- **Web:** HTML, CSS, JavaScript, React, Node.js, Express
- **Tools:** VS Code, SSMS, Git, GitHub

## PROJECTS

### Car Rental Management System

React, Node.js, Express, SQL Server

- A full-stack web app where users can book and manage car rentals. Includes login system and an admin panel to view and manage all cars, bookings, and customer details. Built using React for the frontend and Node.js/Express with SQL Server for the backend.

### Console-Based Social Media

C++ (OOP Concepts)

- A C++ console-based program that allows users to register, post, comment, reply, and manage profiles. Built as a semester project to practice object-oriented programming.

### Sudoku Game

Assembly Language (8088 Architecture)

- Developed a fully functional Sudoku game using Assembly language, including graphics and animations. I worked with low-level programming concepts and managed all game logic and visual effects manually.
